## New Features and Improvements

### Discrepancies

A brand new feature has been introduced for you to manage aircraft squawks.

By accessing an aircraft from the *Resources* or *Hangar* sections, you will find the *Discrepancies* menu where you can add, assign, edit, and remove a discrepancy.

Home / My Dashboard / holdshort.com / Resources / Aircraft: CESSNA 172 / Discrepancies

Discrepancies Close

[+ Add Discrepancy](#) All New Open In Progress Deferred Closed

Name	Status	Priority	Assigned To	Date
<b>Cracked Windshield</b> Fix by Friday By: Holdshort User	Open	Low	Kyle Grant	4 Jan, 2016 4:21 PM
<b>Flat Tire</b> Change the left tire asap! By: Holdshort User	Open	High	Eric Walker	4 Jan, 2016 4:22 PM

You will also be able (providing you have appropriate permissions) to view and manage discrepancies in the new event box by clicking on the aircraft name.

[New Regular Event](#) / [View Resource](#) Close

Meters Values				Inspections		
Name	Start	End	Total	Name	Due Date/Meter	Time Left
Hobbs	212.00	—	—	Pitot-Static	31 Dec, 2017	23 months
Engine 1	13.00	—	—			

Discrepancies [+ Add](#) All New Open In Progress Deferred Closed

Name	Status	Priority	Assigned To	Date
<b>Cracked Windshield</b> Fix by Friday By: Holdshort User	Open	Low	Kyle Grant	4 Jan, 2016 4:21 PM
<b>Flat Tire</b> Change the left tire asap! By: Holdshort User	Open	High	Eric Walker	4 Jan, 2016 4:22 PM

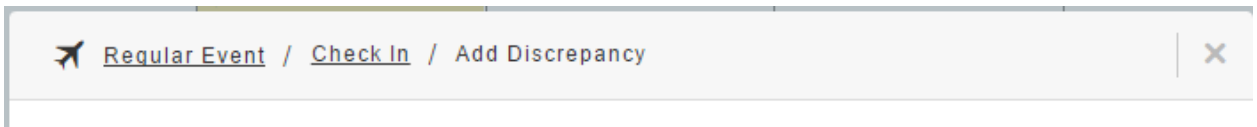

Note! A discrepancy can be assigned only to users with roles that include *View* and *Manage Discrepancies* permissions. *Mechanic* and *Manager* Roles have these by default.

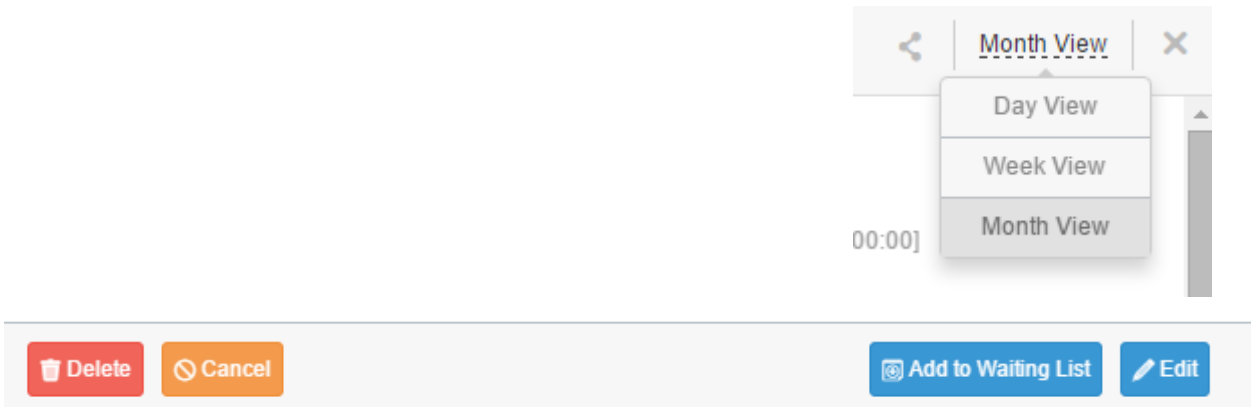

### Improved Event Box

The event box has undergone a considerable visual change. You can now enjoy the better, slicker, and more intuitive design while managing your flights and maintenances.

In particular, new navigation breadcrumbs have been introduced.

The event toolbar buttons have also been redesigned and rearranged.

### Improved Check-In Box

The check-in menu has been enhanced and now comprises the following elements:

1. *Show Details* button which expands into the aircraft basic information snippet.

**Aircraft:** BIRD A [Hide Details](#)

**Registration Number:** 111  
**Pilot Rating Required:** Airplane Single-Engine  
Land

**Instructor Rating Required:** Airplane Single-Engine

2. *Meter Values*

### Meters Values

Meters	Start	End	Total
Hobbs	3.00	<input type="text"/>	0.00
Engine 1	3.00	<input type="text"/>	0.00

### 3. *Inspections* information

#### Inspections

Name	Due Date/Meter	Time Left
Annual	31 Aug, 2015	4 months overdue
Pitot-Static	30 Sep, 2017	20 months
100-hour	180	9 hours
Registration	17 Feb, 2017	12 months
AD 2001-23-11	210.4	39.4 hours

### 4. Custom and event fields

Name	Status	Priority	Assigned To	Date
<b>Cracked Windshield</b> Replace the windshield By: Holdshort User	Open	High	Holdshort User	25 Jan, 2016 4:37 PM

## Recurring Event Menu

Two new functional buttons have been added to the recurring event menu. The *Apply* button saves the recurrence information, while the *Cancel* button returns you to the general event box without keeping any recurrence details.

 on

### Summary

Daily, 1 times

## Week View Date Filter

You will not have to scroll the week view's date selector up and down to navigate to a desired week as it has been before. Year, month, and week can now be chosen from a single box with just a few clicks.

today < 10 – 16 January, 2016 >

Week	Sun	Mon	Tue	Wed	Thu	Fri	Sat		
53	27	28	29	30	31	1	2	January	2010
1	3	4	5	6	7	8	9	February	2011

### Simulators Position in the Day View

Simulators are placed right under aircraft in the day view resource list.

holdshort.com

Demo Location HAH	M	1 PM	2 F
Aircraft			
CESSNA 172 #222222245... ✓			
Simulators			
Sim 1			
Instructors			

### Separate Day View Event Boxes

A short gap has been placed between consecutive events in the day view to avoid visual merging.

Aircraft						
CESSNA 172 #222222245... ✓		✈ 12:30 ...	✈ 2:30 A...			

### Inspection Option "Affects Airworthiness"

Each aircraft now includes an Airworthiness Status Indicator, which shows if any of the aircraft inspections is expired.

Comments

Inspections <span>✓ Airworthy</span>	
Due Date/Meter	Current Meter
31 Jan, 2017	

You can choose, however, which particular inspection does not affect the overall aircraft airworthiness. Just uncheck the appropriate checkbox when adding an inspection.

If the inspection already exists, go to the aircraft edit menu and remove the checkmark.

Affects Airworthiness

**Inspection Type**

Select Inspection ▼

Note! All inspections have this box checked by default.

### Access Rights Section Interface

Since most of the role permissions are interconnected, we have added a new dialogue box, which appears every time you check a permission that cannot go without a few other ones.

Activating this role will also include:

- ✓ — Manage Resources
- View Resources

Add Role With Dependencies

### Aircraft Accessibility Options

We have added *User cannot see or reserve resource* and *Users can only see resource* as default accessibility options for aircraft, simulators, and other resources.

Type	Name	Accessibility	
Aircraft	CESSNA 172	<ul style="list-style-type: none"><li>Users can see and reserve resource</li><li>Users can only see resource</li><li>Users can see and reserve resource</li><li><b>Users cannot see or reserve resource</b></li><li>Users can reserve resource with instructor only</li></ul>	<a href="#">Back to Table</a>

### Return Email Addresses

We have embedded your organization's email address into all the email notifications you receive from your organization (both newsletters and system notices). This means that when you click on the *Reply* sign in an email, you will have your organization's email address in the addressee line.

Click here to [Reply](#) or [Forward](#)

### Fixes

#### Cut Off Event Box on Android

Fixed the issue when the event dialog box was cut off on android devices.

### [Day View Time Indicator](#)

Addressed the issue when a user was sent to the beginning of the first day in the day view (and not to the current time) after viewing or managing events.

### [Incorrect Time Recording for Instructors](#)

Fixed the issue when the event time was recorded incorrectly for instructors via the Event Block Time tracking.

### [Add Event Button Accessibility](#)

Addressed the issue when the Add Event button was screened by the browser's instrument bar on iOS devices.

### [Private Organizations' Information Visibility](#)

The private organization's information is no longer displayed while searching for an organization via the site search.
